Manual of online applications for IOES Joint Research

Ver. 1.6E (2025. 05.06)

Contents

Introduction

Institute of Ocean Energy, Saga University (IOES) has been inviting applications for joint usage/research since FY2005. The applications had been made by the submission of paper forms. However, IOES decided to change the application method from paper application to online application from FY2023 onwards as part of digital transformation efforts. In FY2022, IOES built its online application site as one of the annual projects. This manual provides its operating procedures.

This manual consists of four chapters:

Chapter 1. User account registration
Chapter 2. My Page operation
Chapter 3. Application for IOES Joint Research
Chapter 4. Operation of other user-related functions

The online application site explained by this manual is found at the URL below.
